See request from Sam below. We will need to check if any hydrogen sulfide data is available and assess the potential health impacts. I would like to meet with you on Monday morning at 9:00 AM in my office to discuss this effort.

Thanks

Chris Villarreal

Subject: Action Item from DRA Call on Crossett, AR
Hi, Pam – Sam Coleman had a conference call with Pastor David Bouie of Crossett, AR, yesterday.
During the discussion, there were questions about community exposure to hydrogen sulfide on a daily basis and the potential health impacts.
Sam asked that I contact you to get information from our toxicologist staff that can be provided to the community when he returns to Crossett on April 12, 2014.
Attached is an example of the format we plan on using for your reference. Please let me know if you have any questions. Thank you! -- Tressa
